Financial and Operational Highlights

- Portfolio performance in line with management expectations
- Acquisition bank group expanded to comprise RBC, RBS and Santander
- Acquisition of the Kildrummy and Maerdy wind farms on 30 Jun 2014, funded through reinvestment of the Company's cash resources and acquisition debt facility
- Net installed capacity increased from 184.0MW to 226.4MW

Investment Objective

The Company's aim is to provide investors with an annual dividend that increases in line with RPI inflation (6p for 2013, 6.16p for 2014) while preserving the capital value of its investment portfolio in the long term on a real basis through reinvestment of excess cashflow and the prudent use of portfolio leverage.

Investment Policy

The Company intends to increase its portfolio of wind farm projects. Key investment criteria include:

- The substantial majority of the portfolio will be operating UK wind farm projects (predominately with a capacity over 10MW)
- The portfolio will be invested in both onshore and offshore wind farms, with the amount invested in offshore wind farms being capped at 40% of GAV at acquisition
- The Company intends to retain exposure to UK power prices by entering into Power Purchase Agreements ("PPAs") that avoid fixing the price of power sold over the long-term
- The Company will generally avoid using non-recourse debt at the asset level; total short-term acquisition financing and long-term debt at Company level will not be more than 40% of GAV at drawdown

Portfolio

The Portfolio consists of interests in twelve operating UK wind farms, with an aggregate net installed capacity of 226.4 MW. Key characteristics of the Portfolio:

- Operational, unlevered wind farms with established track records
- Diversified geographical mix across England, Wales, Scotland and Northern Ireland
- Ownership stakes range from 24.95% to 100%
- Weighted average net load factor of 30.5% onshore and 35.7% offshore

Portfolio breakdown (by value)

Market

Renewable energy infrastructure presents an attractive investment opportunity. Key investment characteristics include:

- Long-term investment with stable cashflows and inflation linked yield
- Wind is the most mature and largest scale renewable technology
- Stable regulatory regime with green benefits comprising approximately half of revenues enabling controlled exposure to wholesale electricity price
- Business model facilitates use of variable priced PPAs attractive to utility sellers
- Target pool of assets in excess of £40bn by 2017

Investment Manager

Greencoat Capital LLP ("GC") is the Investment Manager for the Company and is authorised and regulated by the FCA. GC has a highly experienced renewable energy infrastructure investment team led by Stephen Lilley and Laurence Fumagalli.
